# platformONE

If you've been looking for something special, you're going to be delighted when you find what platformONE is about. platformONE is the worlds first international showcase of Urban Theatrical Dance featuring a choreographic prize for the top choreographer.

Now in it's fourth year, you will experience an event whose core concept is not a typical showcase but "a competition of ideas" where the vision and creativity of the choreographer takes centre stage with almost the complete absence of rules, requirements, or choreographic restriction.

Since 2008 platformONE has attracted some of the most talented dancer in the UK. Choreographers such as Muhktar Omar, currently working with Cirque du Soleil in Las Vegas, two time World Hip Hop Dance Champions, Plague, SinCru, Smash Bro'z, R-Te Crew, Peridot of Britain's Got Talent, Dance Nuvo, and others have also showcased at this event.

This year we're expecting dancers from other countries, including the winners of our first international qualifier, platformONE, Russia, to impress you with their creativity, amazing dancing skills and unique ideas. Don't miss the opportunity to experience great pleasure now, by watching this theatrical show. Participate and express your opinion by voting for the best performance. The choreographer with the most spectator votes will earn the **People's Choice Award.**

platformONE comes to Watford Palace Theatre
